ALPHATATIVE

ALPHATATIVE DIFFERENTIATION

- 1st Place Winner of the National Association of Active Investment Managers (NAAIM) “Shark Tank”
- 1st Place Winner of Battlefin’s “Sharpe Ratio Shootout” international quant finance tournament 4.0
- Double-digit Alpha with a lower annualized volatility than the S&P 500 Total Return Index
- Strategy was scientifically developed over a survivorship bias-free dataset which includes delisted equities within our universe (ENE, WCOM, LEH etc.)

STRATVERSIFY® Enhanced Strategy

The award-winning quantitative Long/Short US equity strategy Stratversify® Enhanced is probability-driven, employing multiple reversion systems which compete for capital based on a proprietary formula emphasizing risk-adjusted performance. Every day the strategy systematically determines the current regime for each stock in its NDX and OEX universe and applies capital only when the probabilities show a positive mathematical expectation. This process helps lower portfolio drawdown, generating significant alpha with a lower annualized volatility than the S&P 500 Total Return Index. Typically holding positions for a few days to a few weeks in duration, the strategy adjusts exposure regularly and has been positive in each of the S&P 500 Total Return Index’s worst three months since inception.

Driven to protect. Driven to grow. Logically Driven

ALPHATATIVE INVESTMENT TEAM

David Bush | Chief Investment Officer, Managing Member

A seasoned trader and manager with twenty-four years of experience in multiple financial markets, David Bush is the 1st Place Winner of BattleFin's "Sharpe Ratio Shootout" international quant finance tournament out of over 3200 applicants from more than forty countries, as well as the 1st Place Winner of the National Association of Active Investment Managers (NAAIM) 2016 "Shark Tank" strategy competition. Well-versed in multiple trading platforms and programming languages, Mr. Bush brings years of discretionary trading knowledge, creative arts background, and risk management experience to his quantitative research, systems, and award-winning strategy algorithm Stratversify®. An accomplished musician who spent his early years performing with Grammy-winning and nominated artist and producers, Mr. Bush credits the discipline of music for his affinity and passion for financial market patterns as both fields share mathematical properties, switch between dominant and subordinate regimes, and manifest emotion in rhythm. Prior to forming ALPHATATIVE in 2011, Mr. Bush ran Bush Market Analysis Corp (2002-2010) which provided financial market analysis and education, managing an eight-person team throughout the United States and UK. Mr. Bush's comments, interviews, photos and/or mentions have appeared in the New York Times Dealbook, QuantFORUM, Trade Magazine, Hedge Fund Alert and elsewhere. A student of Parsons School of Design and the Mannes Conservatory, David is a graduate of the New School for Social Research with a B.F.A in Jazz and Contemporary Music and serves as a strategic advisor to the Board of Directors for the National Association of Active Investment Managers (NAAIM) since 2017, as well as serving as Committee Chair of NAAIM's Investment Committee since 2019.

Zach Hurwitz | Assistant Portfolio Manager

With over a decade of active trading experience in equities, futures and options, Zach Hurwitz has worked closely with 500+ proprietary and independent traders as a performance coach for individuals, proprietary trading firms and emerging hedge funds alike. Shortly after graduation from Tufts University (B.A. Economics, '08), Mr. Hurwitz was introduced to David Bush through a mutual colleague and has been a close trading partner since 2010, developing a deep appreciation for and understanding of David's systematic approach and careful design of ALPHATATIVE from — literally — day one. In 2014, Mr. Hurwitz joined ALPHATATIVE as a minority partner with responsibilities ranging from capital introduction and business development to trade execution.

Amit Juneja, PhD | Data Scientist

Amit Juneja currently leads various big data analytics and software development projects in the Global Innovation group at a well-known Fortune 500 company. Amit is helping the innovation team in building new business models and sustaining recent business incubations utilizing his background in machine learning. Before joining Alphatative as a Data Scientist consultant he led a research and development group focused on speech recognition and signal processing at Think A Move Ltd. After successful performance in three global data analytics competitions he achieved a 99.9 percentile among data scientists at www.kaggle.com. He obtained a doctoral degree with a machine learning and speech recognition focus from University of Maryland at College Park and a BS in Electrical Engineering from Indian Institute of Technology.
